

Redstone of Kenwood

New Construction

Architect: FRCH Design Worldwide
Duration: 12 Months

A welcome addition to the popular Kenwood shopping district, Redstone offers 165,000 SF of Class-A flexible office suites. The five-story brick precast building has parking both under the structure and in a connected parking garage. Inside is a two-story atrium as well as 9.5 foot ceilings and full height windows on all floors. The site features an attractive "pocket park" and two outlots for future development.

"We are extremely pleased with Oswald's performance."
